

Hermes Awards for Innovation 2017

Honouring humanistic innovations

Paris, June 13th, 2017- The 2017 « *Hermes Awards for Innovation* » Ceremony will take place in the main amphitheater of « *Maison des Océans* » at « *Institut Océanographique* » in Paris, June 15th at 11:45 am, part of the “ *Chief Innovation Officer's National Meeting*”.

Created in 2009, the “*Hermes Awards for Innovation*” recognize companies or organizations which have excelled in integrating the best state of knowledge into products and services, offering always more satisfaction to individuals and society.

They are inspired by the Renaissance humanists, for whom man is the measure of all things. It is a time when mankind is the essence of all innovations. Progress and human development are the objectives. The “*Hermes Awards for Innovation*” are a distinction of excellence, resulting from a rigorous multi-criteria assessment process.

About the European Institute of Creative Strategies and Innovation

Founded in 2003, EICSI acts as a think-tank on the European renewal through innovation and disseminates a humanistic culture of innovation throughout the world via open and free training and conferences such as “Les Mardis de l'Innovation”, the Chief Innovation Officer's National Meeting, the quarterly major Forums of Innovation Strategies, as well as conferences on humanistic innovation.

More than 12,000 executives and executives participate each year in seminars, conferences and training sessions of the European Institute of Creative Strategies and Innovation in about ten countries.

About the Paris Club of Chief Innovation Officers.

Founded 10 years ago, the Paris Club of Innovation Directors (*Club de Paris des Directeurs de l'Innovation*) brings together the innovation departments of 88 European and international companies, mostly world leaders, as well as public bodies and research centers. The objective is to maintain the best state of the art in innovation through various forms of research, studies and analyzes, exchanges, sharing of experiences, discoveries and dedicated training.
